

HEALTH CARE DIRECTIVE

Declaration made this 11th day of January, 2021

I, Chastity Takoma Edwards, being of sound mind, willfully and voluntarily make known my desire that my dying shall not be artificially prolonged under the circumstances set forth below and do hereby declare:

If at any time I should have an incurable injury, disease, or illness or be in a continual profound comatose state with no reasonable chance of recovery, certified to be a terminal and irreversible condition by two (2) physicians who have personally examined me, one of whom shall be my attending physician, and the physicians have determined that my death will occur whether or not life-sustaining procedures are utilized and where the application of life-sustaining procedures would serve only to prolong artificially the dying process, I authorize my Attorney-in-Fact, Agent or Co-Agents, as the case may be, appointed pursuant to a valid Durable Procuration and Mandate, in his or her discretion to instruct my physician to keep me alive by all means necessary. If at any time I should have an incurable injury, disease, or illness or be in a continual profound comatose state with no reasonable chance of recovery, certified to be a terminal and irreversible condition by two (2) physicians who have personally examined me, one of whom shall be my attending physician, and the physicians have determined that my death will occur whether or not life-sustaining procedures are utilized and where the application of life-sustaining procedures would serve only to prolong artificially the dying process, I authorize my Attorney-in-Fact, Agent or Co-Agents, as the case may be, appointed pursuant to a valid Durable Procuration and Mandate, in his or her discretion to instruct my physician to keep me alive by all means necessary. If I am suffering from conditions described above, then all said life-saving means shall stop, other than the following treatments or procedures (**initial all procedures or treatments you wish to continue**):

[None]

I further direct that I be permitted to die naturally with only the administration of medication or the performance of any medical procedure deemed necessary to provide me with comfort care. It is my further wish that medication be mercifully administered to me to alleviate suffering, even if it may shorten my remaining life.

In the absence of my ability to give directions regarding the use of such life-sustaining procedures, it is my intention that this declaration be honored by my family and physician(s) as the final expression of my legal right to refuse medical or surgical treatment and accept the consequences from such refusal.
