IMPORTANT PLEASE READ

Dear Taxpayer:

Local Ordinances require taxpayers to purchase only one license for each business location **prior to beginning business**, with the minimum license tax being \$50.00. Your license will be based upon the classification of business that constitutes the major portion of the taxable annual gross sales and receipts, but shall include sales and receipts from all classes of business at that location. Additional filing instructions, tax tables and applicable deductions are included with the application. A list of all business classifications is also included and should be used in selecting the correct tax table. Only one application should be completed for each business location.

Businesses should complete all sections on the front of the form and the applicable section on the back of the form as follows:

- All businesses (except hotels, motels, tourist courts, rooming houses, nursing homes and businesses whose license is based on a flat fee and all other businesses and professionals) complete either 1 or 2.
- Hotels, motels, tourist courts and rooming houses complete 3 only.
- Nursing homes complete 4 only.
- Businesses whose license is based on a flat fee complete 5 only.
- All other businesses and professionals complete 6 only.

Please complete **both sides** of the report and return the **original** to our office at the above address.

- There is an additional permit required for the sale of alcoholic beverages.
- There is also a separate report required for amusement machines.
- If the same owner has two or more retail businesses, regardless of location, a chain store license is required. Please contact our office for a reporting form.

INSTRUCTIONS

1. Complete all applicable sections of the license tax report to avoid delays in the issuance of your license.
2. All other businesses and professionals complete 6 only.
3. Base license fee on applicable table (see Tax Tables).
4. If you operate more than one (1) class of business at each location your license is based on total receipts from all classes and based on your primary class of license.
5. When the amount of sales receipts or commissions subject to license tax has been established, refer to the classification chart to determine the appropriate tax table and fee.
